SWIMMING WITH THE DOLPHINS

All year round in Mauritius, nature lovers can experience the most exciting encounter in Black River or Tamarin Bay: Meeting and swimming with the dolphins! Both Spinners and Bottlenose dolphins are seen playing in the bay in the early morning before going back to the open sea.

BOOK NOW FOR A FULL DAY OF RELAXATION & FUN

Our explorer speedboat will bring you to them and you will be provided with all the snorkelling equipment for this magical, experience of a lifetime, swimming with the dolphins. Our speedboat seats up to 6 persons and you can either join a group or rent it privately.

From May to October, wintertime in Mauritius, the dolphin swimming is operated from 7:00a.m to 8:30a.m but in summertime, an earlier departure, as from 6:00a.m can be requested from us as, from our experience, we know that the earlier you go, the greater time you will spend.

For safety reasons we will not operate any dolphin swimming after 8:30 a.m. as there is a large number of boats coming at this time for the dolphin watching. This crowded movement in the water enhances the risk for accidents and chase the dolphins away as the other boats will come closer each time we will drop you in the water.

STAY SAFE! YOUR SAFETY IS OUR PRIORITY

Customers have to use the safety rescue tube provided and are accompanied in the water by a guide with a rescue can.

Make your dreams come true!

FREEDOM.SPECTACULAR. AMAZING

WE GUARANTEE THE DOLPHINS! IF, FOR ANY REASONS, THERE ARE NO DOLPHINS, WE WILL POSTPONE OR REFUND 100% OF THE TRIP!

All around the year, in Black River or Tamarin Bay, Dolphin Watching can be done in early morning, between 7:00 a.m. and 10:30 a.m.

Enhance the experience by spending the day for a cruise on board our catamaran, the "Madiana", from 9:00 to 3:30 p.m.

The day cruise on board the "Madiana" starts with the magical meeting with the dolphins, followed by snorkelling outside the beautiful reef of "La Preneuse". From there, we will sail towards "Le Morne"'s mind-blowing turquoise lagoon where we will stop for a fabulous, mouth-watering, seafood BBQ lunch.

An aerial photograph capturing a group of dolphins swimming in clear, turquoise water. The dolphins are scattered across the upper and middle portions of the frame, their sleek bodies and dorsal fins visible above the surface. In the lower portion of the image, three people are seen from above, also swimming. They are wearing swimwear and appear to be interacting with the dolphins. The water is a vibrant, clear blue-green color, and the overall scene conveys a sense of a tropical, underwater paradise.
